GENEALOGY

Family Ages Tracking Chart

For Family: _____

	Husband	Wife	<----- Children ----->				
Year							
1790							
1800							
1810							
1820							
1830							
1840							
1850							
1860							
1870							
1880							
1890							
1900							
1910							
1920							
1930							
1940							

Helps to identify ancestors in various census years. It's fairly simple to use and to interpret.

The first column lists census years and across the top row you can enter the names of the immediate family members. Fill in the ages of the individuals in each census year below their names.

See <http://ShoeStringGenealogy> for more charts and forms.
